U.S. Environmental Protection Agency Reviews Cleanup at Garden State/South Jersey Cleaners Superfund Sites

The U.S. Environmental Protection Agency (EPA) is conducting its fourth five-year review of the **Garden State/South Jersey Cleaners Superfund Sites** in **Minotola, Buena Borough, New Jersey**. This review seeks to confirm the remedy selected by EPA in the 1991 Record of Decision (ROD) is protective of human health. The selected remedy consists of the following components:

- Extraction of contaminated groundwater above the cleanup standards;
- Treatment of the extracted groundwater via air stripping and carbon adsorption;
- Reinjection of the treated groundwater upgradient from the sites;
- Appropriate environmental monitoring to ensure the effectiveness of the remedy; and
- In-situ vapor extraction (SVE) of soil contaminated with VOCs.

A summary of the cleanup activities completed and an evaluation of the protectiveness of the implemented remedy will be included in the five-year review report.

What is an EPA Five-Year Review?

The purpose of five-year reviews is to ensure that implemented remedies at Superfund sites function as intended and continue to be protective of human health and the environment. These regular reviews, which are required by federal law when contaminants remain at a site, include:

- Inspection of the site and cleanup technologies;
- Review of monitoring data, operating data, and maintenance records, and
- Determination if any new relevant regulatory requirements have been established since EPA's original cleanup decision was finalized.

When will EPA's Five-Year Review Report be available?

It is anticipated that the five-year review report will be available at the website noted below by April 2019.

For more information

There are several ways to review information on this site. The Administrative Record, which includes EPA decision documents used for selecting the cleanup plan, is available for public review at the information repositories listed below. Project information is also available online at the website noted below.

Buena Borough Municipal Building
616 Central Avenue
Minotola, NJ 08314

OR

USEPA Region 2
Superfund Records Center
290 Broadway, 18th Floor
